## **Who We Are**

At the Roche Group, about 80,000 people across 150 countries are pushing back the frontiers of healthcare. Working together, we've become one of the world's leading research-focused healthcare groups. A member of the Roche Group, Genentech has been at the forefront of the biotechnology industry for more than 30 years, using human genetic information to develop novel medicines for serious and life-threatening diseases. The headquarters for Roche pharmaceutical operations in the United States, Genentech has multiple therapies on the market for cancer and other serious illnesses. Please take this opportunity to learn about Genentech, where we believe that our employees are our most important asset and are dedicated to remaining a great place to work.

## **The Position**

### **Solution Architect – Regulatory**

The Regulatory team is looking for a highly skilled Solution Architect, able to deal with the multicultural team. We are looking for an outgoing and open minded individual with high communication and presentation skills.

## **The Position**

The Regulatory Information Management (RIM) Solution Architect is responsible for the architecture of our RIM systems including Global Product Registration System (GPRS), Product Information Dissemination (PID), Q&A, XEVMPD, Protocol Reporting System (PRS) and RADAR, as well as a key contributor to develop these systems to a state where they

fulfill the current business needs and are well prepared to meet future demands.

**The main responsibilities are:**

- Working in a multinational team of employees
- Oversee the technical solutions
- Document the as-is architecture
- Develop the future-state architecture
- Develop a roadmap for the systems
- Support the ongoing projects and design solutions on the existing platform
- Providing guidance in area of expertise to Project Managers and Technical Leads

**Who You Are**

**Who are you**

You're someone who wants to influence your own development. You're looking for a company where you have the opportunity to pursue your interests across functions and geographies. Where a job title is not considered the final definition of who you are, but the starting point.

**For this position, you bring the following qualifications:**

- Bachelor's degree in Computer Science, Engineering or equivalent with 5+ years experience with proven track record of designing software solutions and applying good practices of Solution Architecture
- 3+ years of experience working in multinational and virtual teams
- Delivery experience - programs/projects and/or services, preferably in a regulated environment
- Relevant business knowledge, especially of business processes, and knowledge of a regulated GxP industry required
- Knowledge of information and system landscape in Regulatory Affairs, and knowledge of process how to develop and maintain system landscapes are a plus
- Fluent English skills and ability to travel as required up to 25% of the time
- Flexibility to work outside normal working hours, to support global implementation across different time zones

Genentech is an Equal Opportunity Employer.
