## **Who We Are**

At the Roche Group, about 80,000 people across 150 countries are pushing back the frontiers of healthcare. Working together, we've become one of the world's leading research-focused healthcare groups. A member of the Roche Group, Genentech has been at the forefront of the biotechnology industry for more than 30 years, using human genetic information to develop novel medicines for serious and life-threatening diseases. The headquarters for Roche pharmaceutical operations in the United States, Genentech has multiple therapies on the market for cancer and other serious illnesses. Please take this opportunity to learn about Genentech, where we believe that our employees are our most important asset and are dedicated to remaining a great place to work.

## **The Position**

Sr. Finance Manager – Pharma Finance Development (PFD), South San Francisco

### **Description:**

The Pharma Finance Development group has ~ 45 people in multiple locations around the globe. It is a cross-functional, cross-cultural group that supports the Roche Product Development organization. This role is based in South San Francisco and reports directly to the Director of SSF Pharma Finance Development.

The Senior Finance Manager is responsible for providing financial management and decision support to the Product Development organization.

### **Major Responsibilities:**

- Provide local financial controlling support to several functions within Product Development (Biometrics, Portfolio Management, Global Medical Affairs, Quality)
- Provide global controlling support in collaboration with global functional controller for Biometrics
- Act as internal consultant by providing financial consultation and guidance to business partners as needed; support business in understanding state of finances and actions required to achieve business objectives

- Provide support for all budgets & forecasts for respective local and global functions supported throughout the year
- Prepare and present monthly financial results to functional leadership
- Participate and drive key strategic projects for PFD in support of Product Development
  - o Provide strategic financial analytical support that both measures and drives efficiencies within the Development organization and improves decision making
  - o Present analysis to PFDLT and the PDLT sub-functions
- Collaborate with Global Controllers, Life Cycle Controllers and Global Development Heads on cross-functional projects and to ensure Product Developments meets its business objectives

## **Who You Are**

- 7 years of experience in Finance. Experience in biotechnology/pharmaceuticals preferred. Consulting/Big 4/CPA a plus.
- Excellent communication and interpersonal skills, comfortable with making presentations to executive leadership
- Demonstrated analytical acumen and advanced problem-solving skills
- Proven customer service orientation and ability to drive change throughout an organization
- Track record of outstanding business partnership
- Proven ability to collaborate across geographies and work in a fast-paced, cross-functional and cross-cultural environment
- Proven solutions-oriented capability and ability to multi-task
- Strategic thinker with ability to drive others to results
- Strong financial modeling skills and deep experience in valuations of various scenarios
- Strategic planning mindset and experiences

Genentech is an Equal Opportunity Employer.
