Who We Are

At the Roche Group, about 80,000 people across 150 countries are pushing back the frontiers of healthcare. Working together, we've become one of the world's leading research-focused healthcare groups. A member of the Roche Group, Genentech has been at the forefront of the biotechnology industry for more than 30 years, using human genetic information to develop novel medicines for serious and life-threatening diseases. The headquarters for Roche pharmaceutical operations in the United States, Genentech has multiple therapies on the market for cancer and other serious illnesses. Please take this opportunity to learn about Genentech, where we believe that our employees are our most important asset and are dedicated to remaining a great place to work.

The Position

MEDICAL DIRECTOR/MEDICAL DIRECTOR -

RESPONSIBILITIES:

Genentech is seeking a Medical Director with clinical and drug development experience within our Development-Immunology organization. This individual will be responsible for strategic clinical oversight with a focus on our scleroderma portfolio. The position will involve clinical development of novel agents. The Medical Director will be responsible for the design, implementation, monitoring, analysis, and reporting of studies conducted within one or more programs. They will also participate in developing the long-range strategic plans for the molecule or

molecules.

Who You Are

REQUIREMENTS:

Candidates should have an M.D. or M.D./Ph.D. with board certification/eligibility in Rheumatology or Internal Medicine; expertise in clinical drug development is required. 3-5 years pharmaceutical/biotech industry drug development experience

- Extensive experience leading the design, conduct, analysis, and reporting of clinical studies, including successful US IND and BLA/NDA filing experience
- Thorough understanding of US regulatory/FDA requirements
- Significant successful interactions with key opinion leaders/investigators
- Proven ability to manage, motivate and inspire a diverse group of medical directors
- Proven ability to effectively work in a cross-functional/matrix environment and successfully leverage external partnerships.
- Proven ability to positively and strategically influence employees at all levels and an accomplished record of leading cross-functional teams in a highly matrixed organization
- Strong interpersonal, influencing, presentation, and communications skills (written and verbal) to effectively address all levels within an organization

Genentech is an Equal Opportunity Employer.
