Who We Are

At the Roche Group, about 80,000 people across 150 countries are pushing back the frontiers of healthcare. Working together, we've become one of the world's leading research-focused healthcare groups. A member of the Roche Group, Genentech has been at the forefront of the biotechnology industry for more than 30 years, using human genetic information to develop novel medicines for serious and life-threatening diseases. The headquarters for Roche pharmaceutical operations in the United States, Genentech has multiple therapies on the market for cancer and other serious illnesses. Please take this opportunity to learn about Genentech, where we believe that our employees are our most important asset and are dedicated to remaining a great place to work.

The Position

The job responsibility within the Biological Technologies group in Analytical Development and Quality Control, is to develop, qualify/validate, and troubleshoot biochemical/immunochemical and cell-based assays for clinical and to-be-marketed products. The candidate will perform testing as needed in support of process development, stability, and lot release according to established test procedures.. Expectations will also include some routine lab maintenance, participate in writing SOPs, test procedures, and participate in training, performing testing, troubleshooting, and/or validation of immunological and cell-based potency methods. Additional responsibilities may include presentation of data at internal meetings and participating in the evaluation of new equipment and technologies.

Who You Are

Requirements:

B.S./MS in Biological Sciences, or equivalent experience, with a minimum of 1 - 2 years experiences in performing cell based, biochemical and immunochemical assays. Experience in cell culture is required. GMP experience is a plus. Ability to work independently as well as with a team, handle multiple projects, demonstrate initiative, strong attention to detail, with effective verbal and written communication skills are a must. Candidate must be highly

motivated and comfortable working in a fast-paced environment.

Genentech is an Equal Opportunity Employer.
