How to apply for an Independent Medical Education Grant Tip Sheet

i Independent Medical Education

Independent Medical Education (IME) is generally defined as education for healthcare professionals (HCPs) provided by an independent educational provider, such as a community hospital, academic center, society / association or medical education & communication company. Genentech / Roche supports grants for independent medical education in an effort to further the advancement of medicine and healthcare by improving the knowledge of the medical community and improving patient care.

IX Request Status

Check the Status of the request

1. Click the "Home" tab
2. Review "My Required Tasks"

This section lists tasks that are required from you. Example: signing the Letter of Agreement
3. Review "My Ongoing Tasks"

This section provides access for monthly Status Reports, Scope Changes and Outcomes Reports for each program
4. Review "My Funding Requests" for a list of all submitted funding requests.

This section allows you to print and proposals that you have submitted, print any Letters of Agreement, or delete any un-submitted proposals
5. Review the payment and any check-related information

This section will show you any information that is available for your supported programs including the payment method and date, check number, and the date the check was cashed.

Note: If your payment method was an electronic payment (e.g. ACH), not all of the information will be populated. Payment date and cashed date are the same day.

How to apply for an Independent Medical Education Grant Tip Sheet

* Appendix C – Needs Assessment Guidelines

All requests for funding from Genentech must include a needs assessment that clearly defines the unmet educational need or gap the activity will address. Once the educational need is determined, a documented Needs Assessment can be formulated with associated Learning Objectives. The needs assessment must be documented and referenced. Please note that the Learning Objectives are not the same as the Needs Assessment. Rather, they should support the stated need

- › **What is the identified educational void or gap being addressed through the proposed education?**
 - Indicate whether the education will address a knowledge gap or practice gap
 - Describe the specified knowledge gap or practice gap

- › **Who is the intended audience for the proposed education?**
 - Why?

- › **What are your sources to substantiate your statement that this is an unmet educational need? Some examples of acceptable sources for a Needs Assessment include the following**
 - Expert Data
 - *Expert data may be derived from sources including:*
 - *Literature searches of peer-reviewed medical literature*
 - *Advisory Board feedback (independent of Genentech)*
 - *Expert practitioner / thought-leader interactions*
 - Market Research on Professional Needs
 - *Participant data may be derived from potential sources including:*
 - *Focus panels*
 - *Medical education feedback*
 - *Survey(s) of the proposed target audience*
 - Observed Data
 - *Observed Data may be derived from a number of sources, including*
 - *National and regional data from national research instituted and healthcare professional organizations (CDC, NIH, other)*
