

## Postdoctoral Research Fellow - Infectious Diseases

Job ID: 201904-110946

**Job Function**

Research

**Location**South San Francisco  
California  
United States of America**Schedule**

Full time

**Job type**

Temporary (Fixed Term)

**Company/Division**

Pharmaceuticals

**Job Level**

Individual contributor

---

**The Position**

We are seeking a highly motivated Postdoctoral fellow to work in Man Wah Tan's laboratory in the Infectious Diseases Department to study microbiota-mucosal interactions. The successful applicant will have deep knowledge of and strong technical skills in microbial genetics and microbe-host interactions. The postdoctoral fellow will initiate a research project to investigate interactions between commensal microbiota and the mucosal surface at the molecular level.

Applicant must have a recent PhD and/or MD degree in the field of microbiology, immunology or microbe-host interactions. The candidate must have direct experience in applying basic laboratory techniques relating to the above disciplines; experience with the microbiota, imaging and new microscopy techniques is a plus. The qualified candidates must have a record of innovative scientific accomplishments as evidenced by a first author paper published or accepted in a well-recognized peer-reviewed journal.
