

Scientific Researcher / Sr. Scientific Researcher - Immuno-Oncology (In-Vivo)

Job ID: 3247214846

Job Function

Other Research

Schedule

Full-time

Location

United States - California
South San Francisco

Job type

Regular Employee

Company/Division

Pharmaceuticals

Job Level

Individual Contributor

The Position

The Department of Translational Oncology in Genentech Research is seeking a highly motivated Scientific Researcher/Senior Scientific Researcher to join a group of researchers evaluating novel immune based therapies for cancer. The successful candidate will work within project teams to advance research stage programs into early clinical development, and provide in-vivo efficacy and pharmacodynamic data essential to drive projects into clinical development.

Who You Are

Qualified candidates will possess the following skills and experience. The level of the position will depend on the qualifications of the selected candidate.

- Bachelor's degree in cell biology, immunology, oncology or related science; candidates with a Master's degree or PhD are encouraged to apply
- 3+ years hands-on relevant experience with mouse models; at least 8 years of experience is required for the senior level
- Experience with animal models of immune response and/or anti-tumor immunity preferred
- Track record of success as evidenced by publication record and/or evidence of sustained contributions in a biotechnology or pharmaceutical setting
- Demonstrated expertise in the design, execution and analysis of in vivo tumor models
- Proficiency in IP, IV, SC, and PO dosing, and blood and tissue collection
- Excellent communication skills and the ability to work as a team member
- Proven ability to independently design, execute and interpret experiments
