SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name: CELLCEPT(R) Film Coated Tablets (500 mg)
Product code: SAP-10062347
Synonyms: - CELLCEPT F.C. Tablets
- CELLCEPT Film Coated Tablets

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use: - pharmaceutical active substance (immunosuppressant)

1.3. Details of the supplier of the safety data sheet

Company information: Genentech, Inc.
1 DNA Way
South San Francisco
USA-CA 94080
United States of America

Enquiries: info.sds@roche.com
Phone: 001-(650) 225-1000

Local representation:

US Chemtrec phone: (800)-424-9300

1.4. Emergency telephone number

Emergency telephone number: US Chemtrec phone: (800)-424-9300

*1 referring to: Mycophenolate mofetil
SECTION 2: Hazards identification

Classification of the substance or mixture / Label elements

GHS Classification

Health Hazards:
- 3.1 Acute toxicity (Category 4)
  H302 Harmful if swallowed.
- 3.5 Germ cell mutagenicity (Category 2)
  H341 Suspected of causing genetic defects.
- 3.7 Reproductive toxicity (Category 1B)
  H360D May damage the unborn child.
- 3.9 Specific target organ toxicity - Repeated exposure (Category 1)
  H372 Causes damage to organs through prolonged or repeated exposure.

Signal word: Danger

Label:

Precautionary statements:
- P201 Obtain special instructions before use.
- P260 Do not breathe dust
- P273 Avoid release to the environment.
- P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/ &
- P308 + P313 IF exposed or concerned: Get medical advice/attention.
- P405 Store locked up.

Other hazards

Note
- no further information available

SECTION 3: Composition/information on ingredients

Characterization
Mycophenolate mofetil and other inactive ingredients

Ingredients

<table>
<thead>
<tr>
<th>Ingredient</th>
<th>Concentration</th>
<th>GHS-Classification (pure ingredient)</th>

</table>
**SECTION 4: First aid measures**

4.1. Description of first aid measures

- **Eye contact** - rinse immediately with tap water for at least 20 minutes - open eyelids forcibly
- **Skin contact** - drench affected skin with water
- **Inhalation** - in case of inhalation remove to fresh air and seek medical aid
- **Ingestion** - consult physician

4.2. Most important symptoms and effects, both acute and delayed

Note - no information available

**SECTION 5: Firefighting measures**

5.1. Extinguishing media

- **Suitable extinguishing media** - adapt extinguishing media to surrounding fire conditions
- **Flash point (liquid)** - not applicable

5.2. Special hazards arising from the substance or mixture

- **Specific hazards** - Toxic emissions may be given off in a fire

5.3. Advice for firefighters

- **Protection of fire-fighters** - precipitate gases/vapours/mists with water spray

**SECTION 6: Accidental release measures**

6.1. Personal precautions, protective equipment and emergency procedures

- **Personal precautions** - ensure adequate ventilation
  - keep people away and stay on the upwind side
6.2. Environmental precautions

Environmental protection
- do not allow to enter drains or waterways
- if the substance reaches waters or the sewer system, inform the competent authority
- the solvent should be held back due to environmental protection

6.3. Methods and material for containment and cleaning up

Methods for cleaning up
- collect spilled material (avoid dust formation) and hand over to waste removal in sealed containers

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Technical measures
- provide suitable exhaust ventilation at the processing machines

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions
- keep containers tightly closed
- room temperature
- store in a dry place
- protected from light

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Threshold value (USA) air
- ACGIH-TLV: 10 mg/m³
- ACGIH-TLV: 10 mg/m³
- OSHA-PEL: 5 mg/m³ (respirable dust fraction)
- OSHA-PEL: 15 mg/m³ (total dust)
- NIOSH-REL: 5 mg/m³ (respirable dust fraction)
- NIOSH-REL: 10 mg/m³ (total dust)

Threshold value (Roche) air
- IOEL (Internal Occupational Exposure Limit): 0.01 mg/m³

PNEC
- 0.068 µg/l, based on acute data, surface waters
- 312.5 µg/l, based on chronic data, provisional antibiotic resistance
- PNEC

8.2. Exposure controls

Respiratory protection
- Respiratory protection is recommended as a precaution to minimize exposure. Effective engineering controls are considered to be the primary means to control worker exposure. Respiratory protection should not substitute for feasible engineering controls.
- in case of open handling or accidental release:
  particle mask or respirator with independent air supply
- respiratory protection not necessary during normal operations
Hand protection - protective gloves (eg made of neoprene, nitrile or butyl rubber)
Eye protection - safety glasses
Analytics - sampling on glass fibre filter, desorption with methanol; basify with NaOH, heat; neutralize with HCl, HPLC analysis

*1 referring to: Mycophenolate mofetil
*2 referring to: Magnesium stearate
*3 referring to: Microcrystalline cellulose
*4 referring to: Mycophenolic acid

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Color country-specific
Form capsule-shaped tablet
Solubility ≤ 22 mg/l, water (~ 22 °C, pH 6.3, HPLC, 24 h) *1
≤ 36 mg/l, aquatic ecotoxicity media (~ 22 °C, HPLC, 24 h) *1
Partition coefficient log \( P_{ow} \) 2.38 (n-octanol/water) pH 7.4 *1

9.2. Other information

Note - no information available
*1 referring to: Mycophenolate mofetil

SECTION 10: Stability and reactivity

10.1. Reactivity

Note - no information available

10.2. Chemical stability

Stability - stable under the conditions mentioned in chapter 7

10.3. Possibility of hazardous reactions

Note - no information available

10.4. Conditions to avoid

Note - no information available
### 10.5. Incompatible materials

Materials to avoid

- strong oxidizing agents

*1

### 10.6. Hazardous decomposition products

Note

- no information available

*1 referring to: Mycophenolate mofetil

### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

</table>
Potential Health Effects

- Exposure: Inhalation, Ingestion, Skin contact, Eye contact
- Carcinogenicity: not listed by NTP, IARC or OSHA

*1 referring to: Mycophenolate mofetil
*2 referring to: Magnesium stearate
*4 referring to: Mycophenolic acid

SECTION 12: Ecological information

12.1. Toxicity

Ecotoxicity

- adaptation/recovery of organisms upon prolongation of test
duration (Scenedesmus (=Desmodesmus) subspicatus)
  LOEC (14 d) 1.6 mg/l (nominal concentration)
  (OECD No. 201, prolonged)  *1
- barely toxic for planktonic crustaceans (nominal concentration
  = 100 mg/l), test performed with water accommodated fractions
  (Daphnia magna)
  EC₅₀ (48 h) > 100 mg/l (nominal concentration)
  NOEC (48 h) 27.7 mg/l (average measured concentration)
  (OECD No. 202)  *1
- highly toxic for algae (Scenedesmus (=Desmodesmus)
  subspicatus)
  ErC₅₀ (72 h) 0.6 mg/l (average measured concentration)
  EbC₅₀ (72 h) 0.2 mg/l (average measured concentration)
  NOEC (72 h) 0.1 mg/l (nominal concentration)
  (OECD No. 201)  *1
- acute fish toxicity in a limit test is lower than daphnid or algal
toxicity, hence not relevant for classification (guppy)
  NOEC (96 h) 1.7 mg/l (highest tested concentration)
  (OECD No. 203)  *1
- no adverse influence on substrate biodegradation (activated
  sludge)
  concentration (14 d) 100 mg/l (nominal concentration)
  (Manometric Respirometry Test, OECD No. 301 F)  *1

12.2. Persistence and degradability

Ready biodegradability

- not readily biodegradable
  ~ 14 %, 64 d
  (FDA Technical Assistance Document No. 3.11)  *1
- not readily biodegradable
  primary degradation evidenced by HPLC
  < 6 %, 28 d
  (Manometric Respirometry Test, OECD No. 301 F)  *1

Inherent biodegradability

- evidence for medium-term biodegradation in surface waters
  (analogous to OECD 308, Transformation in natural
  water/sediment systems)  *1
- inherently biodegradable  *3
Abiotic degradation - rapid degradation, photodegradation, hydrolysis 22.3 mg/l, water; HPLC
~ 37 %, 120 h, ~ 22 °C, dark
~ 67 %, 120 h, ~ 22 °C, under illumination *1

12.3. Bioaccumulative potential
Note - no information available

12.4. Mobility in soil
Note - no information available

12.5. Results of PBT and vPvB assessment
Note - no information available

12.6. Other adverse effects
Air pollution - observe local/national regulations *1

*1 referring to: Mycophenolate mofetil
*3 referring to: Microcrystalline cellulose

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Waste from residues - return to supplier or hand over to authorized disposal company
- observe local/national regulations regarding waste disposal
- incinerate in qualified installation with flue gas scrubbing
- DO NOT FLUSH unused medications or POUR them down a sink or drain. If available in your area, use takeback programs run by household hazardous waste collection programs or community pharmacies to dispose of unused and expired medicines. If you don’t have access to a takeback program, dispose of these medicines in the household trash by removing them from their original containers and mixing them with an undesirable substance, such as used coffee grounds or kitty litter.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

TSCA Status
- FDA Exemption - not on inventory

Reporting Requirements
- The United States Environmental Protection Agency (USEPA) has not established a Reportable Quantity (RQ) for releases of this material.
- In New Jersey, report all releases, which are likely to endanger the public health, harm the environment or cause a complaint, to the NJDEPE Hotline and to local officials.
- State and local regulations vary and may impose additional reporting requirements.

SECTION 16: Other information

Safety-lab number
- BS-8818
- BS-9333

Full text of H-Statements referred to under section 3
H302  Harmful if swallowed.
H341  Suspected of causing genetic defects.
H360D May damage the unborn child.
H372  Causes damage to organs through prolonged or repeated exposure.
USH003 May form combustible dust concentrations in the air
Note - Please note this Safety Data Sheet for the bulk product does not apply for the finished, packaged medicinal product intended for the final user.

Edition documentation - changes from previous version in sections 8, 9, 15

*1 referring to: Mycophenolate mofetil

The information in this safety data sheet is based on current scientific knowledge. It should not be taken as expressing or implying any warranty concerning product characteristics.
