## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

<table>
<thead>
<tr>
<th>Product name</th>
<th>PEGASYS ProClick™ Autoinjector (135 mcg/0.5 ml)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Product code</td>
<td>SAP-10144640</td>
</tr>
<tr>
<td>Synonyms</td>
<td>PEGASYS Autoinjector 135 mcg</td>
</tr>
</tbody>
</table>

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

- **Use**: PEGASYS(R) is an antiviral drug used in the treatment of Hepatitis C.

### 1.3. Details of the supplier of the safety data sheet

**Company information**

- Enquiries: Genentech, Inc.
- 1 DNA Way
- South San Francisco
- USA-CA 94080
- United States of America

- Phone: 001-(650) 225-1000
- E-Mail: info.sds@roche.com
- US Chemtrec phone: (800)-424-9300

**Local representation**: [Company information]

### 1.4. Emergency telephone number

- Emergency telephone number: US Chemtrec phone: (800)-424-9300

## SECTION 2: Hazards identification

### Classification of the substance or mixture / Label elements

- **GHS Classification**: No classification and labelling according to GHS

### Other hazards

- **Note**: No information available
PEGASYS ProClick™ Autoinjector (135 mcg/0.5 ml)

SECTION 3: Composition/information on ingredients

Characterization Peginterferon α-2a with other inactive ingredients used in an auto-injector

<table>

For the full text of the ‘Hazard statements’ mentioned in this Section, see Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

Eye contact - rinse immediately with tap water for at least 20 minutes - open eyelids forcibly

Skin contact - remove immediately contaminated clothes, wash affected skin with water and soap - do not use any solvents

Inhalation - remove the casualty to fresh air and keep him/her calm
- in the event of symptoms get medical treatment

4.2. Most important symptoms and effects, both acute and delayed

Note - no information available

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media - adapt extinguishing media to surrounding fire conditions

Flash point (liquid) not applicable

5.2. Special hazards arising from the substance or mixture

Specific hazards - no particular hazards known

5.3. Advice for firefighters

Protection of fire-fighters - precipitate gases/vapours/mists with water spray
**SECTION 6: Accidental release measures**

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions - no special precautions required

6.2. Environmental precautions

Environmental protection - no special environmental precautions required

6.3. Methods and material for containment and cleaning up

Methods for cleaning up - collect liquids by means of sand, earth or another suitable material

**SECTION 7: Handling and storage**

7.1. Precautions for safe handling

Suitable materials - glass, tested plastics, stainless steel

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions - 2 - 8 °C
- do not freeze
- protected from light

Validity - after opening the content should be used within a short period, see "best use before" date stated on the label

Packaging materials - autoinjector
- keep it in the outer carton in order to protect from light

**SECTION 8: Exposure controls/personal protection**

8.1. Control parameters

Threshold value (Roche) air - IOEL (Internal Occupational Exposure Limit): 0.06 µg/m³

8.2. Exposure controls

Respiratory protection - Respiratory protection is recommended as a precaution to minimize exposure. Effective engineering controls are considered to be the primary means to control worker exposure. Respiratory protection should not substitute for feasible engineering controls.
- respiratory protection not necessary during normal operations

Hand protection - protective gloves (eg made of neoprene, nitrile or butyl rubber)

Eye protection - safety glasses

*1 referring to: Peginterferon α-2a
SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties
Color: colorless to slightly yellow
Form: sterile liquid
Density: 1.004 g/ml
pH value: 5.8 to 6.2

9.2. Other information
Note: no information available

SECTION 10: Stability and reactivity

10.1. Reactivity
Note: no information available

10.2. Chemical stability
Stability: stable under normal conditions

10.3. Possibility of hazardous reactions
Note: no information available

10.4. Conditions to avoid
Conditions to avoid: light

10.5. Incompatible materials
Note: no information available

10.6. Hazardous decomposition products
Note: no information available

SECTION 11: Toxicological information

11.1. Information on toxicological effects
Acute toxicity
- NOEL 300 µg/kg (i.v., cynomolgus monkey) *1
- NOEL 6'750 µg/kg (s.c., cynomolgus monkey) *1
### Subacute toxicity
- **NOEL**: ~ 600 µg/kg/d (i.v., several species, 28 d) *1

### Local effects
- no information available

### Sensitization
approx. one fourth of patients develop antibodies against pure Interferon α-2A; however, these cause no clinical symptoms *1

### Mutagenicity
- not mutagenic (various in vitro test systems) *1

### Carcinogenicity
- no information available

### Reproductive toxicity
- no information available

### STOT-single exposure
- no information available

### STOT-repeated exposure
- no information available

### Aspiration hazard
- no information available

### Potential Health Effects
- Exposure: Inhalation, Ingestion, Skin contact, Eye contact
  - Carcinogenicity: not listed by NTP, IARC or OSHA

*1 referring to: Peginterferon α-2a

### SECTION 12: Ecological information

#### 12.1. Toxicity

**Ecotoxicity**
- barely toxic for fish (carp)
  - LC₅₀ (96 h) > 300 mg/l
  - NOEC (96 h) 300 mg/l
  - (OECD No. 203, semistatic) *1
- barely toxic for planktonic crustaceans (Daphnia magna)
  - LC₅₀ (48 h) > 300 mg/l
  - NOEC (48 h) 300 mg/l
  - (OECD No. 202, semistatic) *1
- barely inhibitory on aerobic bacterial respiration (activated sludge)
  - concentration (28 d) 3.3 mg/l
  - (Closed Bottle Test, OECD No. 301 D) *1

#### 12.2. Persistence and degradability

**Ready biodegradability**
- not readily biodegradable
  - ≤22 %, 28 d
  - (Closed Bottle Test, OECD No. 301 D) *1

#### 12.3. Bioaccumulative potential

**Note**
- no information available
12.4. Mobility in soil

Note - no information available

12.5. Results of PBT and vPvB assessment

Note - no information available

12.6. Other adverse effects

Note - no information available

*1 referring to: Peginterferon α-2a

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste from residues - observe local/national regulations regarding waste disposal
- medicines should not be disposed of via wastewater

SECTION 14: Transport information

Note - not classified as Dangerous Good according to the Dangerous Goods Regulations, proper shipping name non-regulated

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

TSCA Status - FDA Exemption - not on inventory

Reporting Requirements - The United States Environmental Protection Agency (USEPA) has not established a Reportable Quantity (RQ) for releases of this material.
- In New Jersey, report all releases, which are likely to endanger the public health, harm the environment or cause a complaint, to the NJDEPE Hotline and to local officials.
- State and local regulations vary and may impose additional reporting requirements.
SECTION 16: Other information

Full text of H-Statements referred to under section 3
