**Instructions for Use**

**Description:** The Nutropin AQ NuSpin 10 is a multi-dose, dial-a-dose injection device prefilled with Nutropin AQ (somatropin [rDNA origin] injection) for subcutaneous use. It features automatic injection of the drug and is disposable.

The Nutropin AQ NuSpin 10 (Teal Color, 10 mg/2 mL) delivers doses from 0.1 to 3.5 mg in increments of 0.1 mg.

**Intended Use:** The Nutropin AQ NuSpin 10 is intended to be used by a healthcare professional or patient to deliver Nutropin AQ (somatropin [rDNA origin] injection) from an injection device. The device can be used in any setting, including the home, and is disposable.

**Important Notes**

- Always follow the directions of your healthcare professional and the instructions provided on the back. Contact your healthcare professional if you have any questions.
- Check the label on the NuSpin 10 to make sure the medicine matches your prescription and it has not expired.
- Inspect the cartridge before use to ensure that the medicine is in it. If it is cloudy or hazy, do not inject. Return the NuSpin 10 to your healthcare professional.
- Store your NuSpin 10 inside the refrigerator at 2-8°C (36-46°F). Protect from light.
- The product can be used for 28 days after it has been primed and kept under proper storage conditions.
- For the first use of each NuSpin 10, always follow the New NuSpin 10 Set Up Instructions to ensure that air is expelled from the cartridge.
- Do not store with the needle attached. The needle should be removed and safely disposed of immediately after use.

**Frequently Asked Questions**

1. **What type of needles should be used?**
   Your healthcare professional will recommend a needle that is appropriate for you. If you use the optional needle shield with your NuSpin 10, we recommend needles 8 mm (1/3"") or longer to provide adequate needle length during usage. Needles from other countries may not fit on your NuSpin 10. If you travel outside the United States, make sure you take enough needles for the duration of your stay.

2. **Do I need to change the needle every time I use my Nutropin AQ NuSpin?**
   Yes. A new needle must be used for every injection. The needle is sterile only for one single injection.

3. **Do I need to prime the Nutropin AQ NuSpin each time?**
   No. The NuSpin 10 only needs to be primed once, at first use. After the first use of each NuSpin 10, follow the instructions and skip Step 2.

4. **When and how do I dispose of my Nutropin AQ NuSpin?**
   Your NuSpin 10 is prefilled and the cartridge cannot be replaced. When your NuSpin 10 is empty, dispose of the entire NuSpin 10 as instructed by your healthcare professional. If the empty NuSpin 10 is disposed of with the needle attached, discard the entire device using the same procedure as for needle disposal.

5. **Where should I store my Nutropin AQ NuSpin?**
   When not in use, your NuSpin 10 should be stored inside a refrigerator at 2-8°C (36-46°F) to maintain the potency of Nutropin AQ (somatropin [rDNA origin] injection). During usage, we recommend that you have your NuSpin 10 outside of the refrigerator for no longer than one hour per day. When traveling, place your NuSpin 10 in a water-resistant container before placing in a cooler. DO NOT FREEZE. KEEP DRY.

6. **What should I do if my Nutropin AQ NuSpin is dropped or damaged?**
   If you drop the NuSpin 10, check to see if it is damaged. You should also check to see that the black dose knob and the Activator are moving properly. If you notice the NuSpin 10 is damaged, contact your healthcare professional or call 1-866-NUTRIPIN for advice.

7. **What should I do if my Nutropin AQ NuSpin needs cleaning?**
   Use a damp cloth to wipe away dirt. Do not place underwater. Do not use alcohol.

Please see other side for additional instructions.
INSTRUCTIONS FOR USE

NEW NuSpin 10 SET UP: STEP-BY-STEP INSTRUCTIONS FOR THE FIRST USE OF EACH NEW NUTRIPIN AQ NuSpin 10

STEP 1: Attach the needle

Before you begin, wash your hands. Twist gently and pull to remove the NuSpin 10 cap. Inspect the cartridge before use to ensure that the medicine in it is clear. If it is cloudy or hazy, do not inject. Open a new needle by peeling off the paper tab from the needle package.

STEP 2: Prime the Nutrpin AQ NuSpin

Attach the needle by carefully screwing the needle onto the needle holder. Do not overtighten. Remove both protective covers from the needle and save the outer cover. Turn the dose knob to the position in the dose window. It may take multiple clicks to get to . Hold the NuSpin 10 with the needle pointing upwards. Gently tap the cartridge holder to move any air bubbles to the NuSpin 10 tip. Slide the Activator toward the needle. If you do not see fluid at the needle tip, nodal to  and slide the Activator forward again. Repeat until you see fluid.

STEP 3: Set the dose

Make sure the dose window reads . Turn the dose knob until the dose prescribed by your healthcare professional appears in the dose window.

STEP 4: Give the injection

If your dose is between two numbers in the dose window, the  between those two numbers indicates your dose. Turn the dose knob to . The position indicates a mg dose on your NuSpin 10. If you turn the dose knob too far, simply turn it back to the correct dose. (Example above shows a dose of mg, represented by .)

Select and prepare your injection site as instructed by your healthcare professional. Position your hand so you can easily slide the Activator. Push the needle into the skin. If you are using the needle shield, refer to the instructions provided with the shield.

Check dose given

If the dose knob stops before  returns to , your Nutrpin AQ NuSpin 10 is empty and you have not received your full dose. The number shown in the dose window is the amount needed to obtain a full dose. Your healthcare professional will advise you on the procedure for using the last dose in the NuSpin 10.

REMOVAL AND DISPOSAL OF THE NEEDLE

Carefully place the outer cover of the needle package over the needle, unscrew, and dispose of it as instructed by your healthcare professional. If you are using the needle shield, refer to the detailed instructions included with the shield for removing and disposing of the needle. KEEP YOUR SHIELD FOR FUTURE USE WITH A NEW NEEDLE ASSEMBLY.

STORAGE AND NEXT USE

Replace the cap and store your NuSpin 10 inside the refrigerator at 2–8°C (36–46°F). Protect from light. For the next use, it is already primed. Follow the instructions and skip Step 2.

INSTRUCTIONS FOR USE

NEW NuSpin 5 SET UP: STEP-BY-STEP INSTRUCTIONS FOR THE FIRST USE OF EACH NEW NUTROPIN AQ NuSpin 5

STEP 1: Attach the needle

Before you begin, wash your hands. Twist gently and pull to remove the NuSpin 5 cap. Inspect the cartridge before use to ensure that the medicine in it is clear. If it is cloudy or hazy, do not inject. Open a new needle by peeling off the paper tab from the needle package.

STEP 2: Prime the Nutropin AQ NuSpin

Attach the needle by carefully screwing the needle onto the needle holder. Do not overtighten. Remove both protective covers from the needle and save the outer cover. Turn the dose knob to the position in the dose window. It may take multiple clicks to get to that position. Hold the NuSpin 5 with the needle pointing upwards. Gently tap the cartridge holder to move any air bubbles to the NuSpin 5 tip.

STEP 3: Set the dose

Make sure the dose window reads 0.0 • 0.0. Turn the dose knob until the dose prescribed by your healthcare professional appears in the dose window.

STEP 4: Give the injection

If your dose is “between” two numbers in the dose window, the • • between these two numbers indicates your dose. Turn the dose knob to • •. The • position indicates a 0.35 mg dose on your NuSpin 5. If you turn the dose knob too far, simply turn it back to the correct dose. (Example above shows a dose of 0.05 mg, represented by • •.)

Check dose given

Select and prepare your injection site as instructed by your healthcare professional. Position your hand so you can easily slide the Activator. Push the needle into the skin. If you are using the needle shield, refer to the instructions provided with the shield.

SLIDE THE ACTIVATOR TOWARD THE NEEDLE.

Hold the Activator down until the dose knob returns to • 0.0 • and continues to hold in place for 5 seconds. Withdraw the Nutropin AQ NuSpin 5 until the needle is removed from the skin. If the dose knob returns to • 0.0 • you have received your full dose.

REMOVAL AND DISPOSAL OF THE NEEDLE

Carefully place the outer cover of the needle package over the needle, unscrew, and dispose of it as instructed by your healthcare professional. If you are using the needle shield, refer to the detailed instructions included with the shield for removing and disposing of the needle. KEEP YOUR SHIELD FOR FUTURE USE WITH A NEW NEEDLE ASSEMBLY.

STORAGE AND NEXT USE

Replace the cap and store your NuSpin 5 inside the refrigerator at 2–8°C (36–46°F). Protect from light. For the next use, it is already primed. Follow the instructions and skip Step 2.

**INSTRUCTIONS FOR USE**

**Description:** The Nutropin AQ NuSpin 20 is a multi-dose, dial-a-dose injection device prefilled with Nutropin AQ (somatropin [rDNA origin] injection) for subcutaneous use. It features automatic injection of the drug and is disposable. The Nutropin AQ NuSpin 20 (Blue Color, 20 mg/2 mL) delivers doses from 0.2 to 7.0 mg in increments of 0.2 mg.

**Intended Use:** The Nutropin AQ NuSpin 20 is intended to be used by a healthcare professional or patient to deliver Nutropin AQ (somatropin [rDNA origin] injection) from an injection device. The device can be used in any setting, including the home, and is disposable.

**IMPORTANT NOTES**

- Always follow the directions of your healthcare professional and the instructions provided on the back. Contact your healthcare professional if you have any questions.
- Check the label on the NuSpin 20 to make sure the medicine matches your prescription and it has not expired.
- Inspect the cartridge before use to ensure that the medicine in it is clear. If it is cloudy or hazy, do not inject. Return the NuSpin 20 to your healthcare professional.
- Store your NuSpin 20 inside the refrigerator at 2–8°C (36–46°F). Protect from light.
- The product can be used for 28 days after it has been primed and kept under proper storage conditions.
- For the first use of each NuSpin 20, always follow the New NuSpin 20 Set Up Instructions to ensure that air is expelled from the cartridge.
- Do not store with the needle attached. The needle should be removed and safely disposed of immediately after use.

**FREQUENTLY ASKED QUESTIONS**

1. **What type of needles should be used?**
   Your healthcare professional will recommend a needle that is appropriate for you. If you use the optional needle shield with your NuSpin 20, we recommend needles 8 mm (3/8") or longer to provide adequate needle length during usage. Needles from other countries may not fit on your NuSpin 20. If you travel outside the United States, make sure you take enough needles for the duration of your stay.

2. **Do I need to change the needle every time I use my Nutropin AQ NuSpin?**
   Yes. A new needle must be used for every injection. The needle is sterile only for one single injection.

3. **Do I need to prime the Nutropin AQ NuSpin each time?**
   No. The NuSpin 20 only needs to be primed once at first use. After the first use of each NuSpin 20, follow the instructions and skip Step 2.

4. **When and how do I dispose of my Nutropin AQ NuSpin?**
   Your NuSpin 20 is prefilled and the cartridge cannot be replaced. When your NuSpin 20 is empty, dispose of the entire NuSpin 20 as instructed by your healthcare professional. If the empty NuSpin 20 is disposed of with the needle attached, discard the entire device using the same procedure as for needle disposal.

5. **Where should I store my Nutropin AQ NuSpin?**
   When not in use, your NuSpin 20 should be stored inside a refrigerator at 2–8°C (36–46°F) to maintain the potency of Nutropin AQ (somatropin [rDNA origin] injection). During use, we recommend that you have your NuSpin 20 outside of the refrigerator for no longer than one hour per day. When traveling, place your NuSpin 20 in a water-resistant container before placing in a cooler. DO NOT FREEZE. KEEP DRY.

6. **What should I do if my Nutropin AQ NuSpin is dropped or damaged?**
   If you drop the NuSpin 20, check to see if it is damaged. You should also check to see that the black dose knob and the Activator are moving properly. If you notice the NuSpin 20 is damaged, contact your healthcare professional or call 1-888-NUTRIPIN for advice.

7. **What should I do if my Nutropin AQ NuSpin needs cleaning?**
   Use a damp cloth to wipe away dirt. Do not place underwater. Do not use alcohol.

Please see other side for additional instructions.
INSTRUCTIONS FOR USE

NEW NuSpin 20 SET UP: STEP-BY-STEP INSTRUCTIONS FOR THE FIRST USE OF EACH NEW NUTROPIN AQ NuSpin 20

STEP 1: Attach the needle
Before you begin, wash your hands. Twist gently and pull to remove the NuSpin 20 cap. Inspect the cartridge before use to ensure that the medicine in it is clear. If it is cloudy or hazy, do not inject. Open a new needle by peeling off the paper tab from the needle package.

STEP 2: Prime the Nutropin AQ NuSpin
Attach the needle by carefully screwing the needle onto the needle holder. Do not overtighten. Remove both protective covers from the needle and save the outer cover.

Turn the dose knob to the IP position in the dose window. It may take multiple clicks to get to IP. Hold the NuSpin 20 with the needle pointing upwards. Gently tap the cartridge holder to move any air bubbles to the NuSpin 20 tip.

Slide the Activator toward the needle. If you do not see fluid at the needle tip, reposition to IP and slide the Activator forward again. Repeat until you see fluid.

OPTIMAL STEP: Attach the needle shield
Use of the needle shield is optional. It may be obtained from your healthcare professional. Refer to the detailed instructions provided with the shield and attach it now.

ROUTINE USE: DOSING AND ADMINISTRATION

STEP 3: Set the dose
Make sure the dose window reads 0.0. Turn the dose knob until the dose prescribed by your healthcare professional appears in the dose window.

If your dose is “between” two numbers in the dose window, the • • • between those two numbers indicates your dose. Turn the dose knob to • • •. The IP position indicates a 1.4 mg dose on your NuSpin 20.

If you turn the dose knob too far, simply turn it back to the correct dose. (Example above shows a dose of 0.2 mg, represented by • • •.)

STEP 4: Give the injection
Select and prepare your injection site as instructed by your healthcare professional. Position your hand so you can easily slide the Activator. Push the needle into the skin.

If you are using the needle shield, refer to the instructions provided with the shield.

Check dose given
If the dose knob stops before it returns to • • •, your Nutropin AQ NuSpin 20 is empty and you have not received your full dose.

The number shown in the dose window is the amount needed to obtain a full dose. Your healthcare professional will advise you on the procedure for using the last dose in the NuSpin 20.

REMOVAL AND DISPOSAL OF THE NEEDLE
Carefully place the outer cover of the needle package over the needle, unscrew, and dispose of it as instructed by your healthcare professional.

If you are using the needle shield, refer to the detailed instructions included with the shield for removing and disposing of the needle. KEEP YOUR SHIELD FOR FUTURE USE WITH A NEW NEEDLE ASSEMBLY.

STORAGE AND NEXT USE
Replace the cap and store your NuSpin 20 inside the refrigerator at 2–8°C (36–46°F). Protect from light. For the next use, it is already primed. Follow the instructions and skip Step 2.
